# Supat Yadav

Full Stack Software Engineer

supat.yad@gmail.com | 098-939-9121 | github.com/supat9

## PROFESSIONAL SUMMARY

Full Stack Software Engineer experienced in building and deploying web applications with React.js, Next.js, and Go. Hands-on experience with RESTful APIs, SQL and NoSQL databases, AWS, and CI/CD workflows. Integrates AI for internal knowledge retrieval and data summarization. Experienced in Agile development, microservices, and Domain-Driven Design.

## PROFESSIONAL EXPERIENCE

### Full Stack Developer

Jul 2026 - Present

Atiz Innovation Co., Ltd.

- Develop and maintain full-stack web applications with React.js and Next.js frontends and backend services built with Go and the Gin framework.
- Design and develop RESTful APIs and integrate MongoDB, PostgreSQL, and MySQL to support application data and business workflows.
- Integrate payment gateways to enable online payments and connect applications with LINE Official Accounts.
- Set up application projects and deploy to AWS, using CI/CD workflows to support build and deployment processes.
- Integrate AI for internal knowledge retrieval, data summarization, and explanation to help users find and understand information.

### Software Engineer

Apr 2025 - Jun 2025

Ngern Hai Jai Co., Ltd.

- Developed and optimized production features using Next.js and Go to improve application performance and user experience.
- Built and maintained microservices, applying Domain-Driven Design principles to structure business logic and improve maintainability.
- Collaborated with an Agile team on requirements, sprint planning, and iterative delivery through deployment; used Git and GitHub for branching, pull requests, and code reviews.

## TECHNICAL SKILLS

**Languages:** TypeScript, JavaScript, Go, SQL, Python
**Frontend and Backend:** React.js, Next.js, Tailwind CSS, Gin, Node.js, Express.js, RESTful APIs
**Databases:** MongoDB, PostgreSQL, MySQL
**Cloud and Tools:** AWS, CI/CD, Docker, Git, GitHub, Postman, Vercel
**AI:** AI integration, Claude Code, ChatGPT

## SELECTED PROJECT

### Equipment Borrowing and Return System

Jul 2025 - Oct 2025

Next.js, Node.js, Express.js, Tailwind CSS, SQL, Swagger

- Built equipment borrowing, return, and maintenance workflows with authentication and role-based access for Admin, Staff, and User roles; documented RESTful APIs with Swagger.

## EDUCATION

### Kasetsart University

2022 - 2025

Bachelor of Science in Information Technology
First-Class Honors | GPA 3.91

## CERTIFICATIONS

HackerRank: SQL Certificate | JavaScript Certificate
